Good. What is good? Do we know? All humans learn about life and assess what the nice things are to them. The norm for good is something seen that is appealing to the eye at that instant. Positive. Desirable. However, do we know that what we see or attain is good? No one knows. The good is not something we see at an instant but proven over time.

To achieve good is not something easy to come by. To reach that plateau most times requires hard work and dedication. When believers think of good, they think of God. In the English language, the spelling difference between good and God is the letter o. A coincidence? Maybe or maybe not.

Whether they are for or against you, society recognizes the good.

The good that we do, especially believers, should be daily. This attribute will have an impact on your life and the community. The people will either be friendly towards you or be against you. Not everyone will have the heart to go about doing good.

The biggest obstacle between good and people is doing it. It is so easy to talk about it, envision it, but the practical part is the challenge. Particularly to people that are not nice and seem they do not deserve it. However, a good deed towards people of that nature could positively affect their lives.

The good we do will have an impact in the long run. Not simple, but God shines through this indeed.

Prayer: Lord God, help me to do good to others and not shy away when the opportunity presents itself. Thank you God.
