The Holy Bible is the book that God made for His people that He created to receive, believe, and follow. The purpose of the Holy Scriptures is the preparation for the people of God to be ready for His return.

The Holy Bible is the only book that will guide anyone who believes in the Word of God to heaven. A place explained in the book of books that God made that exist and will not pass away but abides forever.

The only requirement the Holy Bible mentions for someone to be with God is to obey what it says. Sounds simple? The secret to the obedience of this Holy book is to read, study the scriptures, pray, and ask God for help. These steps will need time daily to achieve this goal.

The more the Holy Bible a person read and study, the more the person will become a believer. Then the individual begins to accept it and takes on the identity. This activity builds a close relationship with God through His word.

As a believer gets deep in the Holy Bible, the inner being of that person will eventually become stronger until they act differently on the outside. The believer is in an engagement with God and His Holy Word that they become conscious of things that would offend Him.

The Holy Bible can change a person. All it takes is commitment, and it will prepare that individual for everlasting life with God when He returns.
