Inheritance is commonly known as possession gained through the deceased of someone. However, the Son of God voluntarily sacrificed Himself that enable humanity to receive salvation by accepting. Therefore, allowing them to obtain an inheritance.

The inheritance is since children of God are apart from others who have not yet received the Son of God, are allowed to gain access. Daily keeping the commandments of God and abiding in His Word, our name permits us to receive. To withdraw from our inheritance is because we are imitators of Christ. He lives in us while we live for Him. Through this inheritance, God will supply the needs of His people and establish us forever with Him.

However, even though we are entitled to this inheritance, there are terms and conditions that children of God must daily continue to follow. Since believers are apart of the family of God, similar to an earthly family, we carry the name and live according to His standards.

Identical to a family household, if we decide anytime to compromise, the inheritance will not be accessible. To maintain requires discipline in all areas of life, with God being our dependant. Inheritance from God changes our life perspective. We live and view life His way here on earth. This inheritance is not only here now, however, but our future residence is also in heaven.
