

Outer Growth - Love

Let all that you do be done in love.

1 Corinthians 16:14

Live-----Romans 12:9

Obstacles-----1 Corinthians 13:5, 7-8

Voice-----1 Corinthians 13:6

Eyes-----1 Corinthians 13:4

Love. The most powerful word for people coming together. In a relationship, love at first sight, or falling in love with you, is famous between couples. These love quotes are common in our society today. However, love, at first sight, can become dull at some point. Anyone falling in love with someone can easily fall out of it. So, what is love? What does it mean? God is love. In John 3:16, God gave His only Son to save the world. We know that from God's perspective, love gives. How many people can say that everything they do, they do it in love?

There are four factors to love in a relationship. The first one is Love lives. Two people that are together will experience good days and bad days with each other. One out of the two might not have such a great day as the other, and the other should understand that and make them feel better.

The second is love overcomes obstacles. This area is where relationships fall apart, and love starts to decay. The love, in this case, is conditional. Money is the issue between most couples today. Other problems that may occur are misunderstanding blown out of proportion that requires some patience. Another conflict is adjusting to each other tendencies.

The third is love overcomes rumours and gossip within their social environment. It just takes one person to say something that is not true to create drama between a couple. However, if the pair in the relationship know each other, they will be able to resolve the matter peacefully.

The final is love overcomes assumptions. A person that paints a picture of a couple and gives their input to their associates. This activity is such a threat to a relationship. A couple that can survive adversity like this has a love for each other.

Love is the bond that brings people together. However, for relationships to stay together, it takes these four factors to keep the relationship together.
