What does it mean to prosper? How do we achieve it honestly? God expects us to have success in our lives in all our endeavors. There are different ways of prosperity in the eyes of man. However, there is only one way in the eyes of God. His way.

The general way to prosper is labor. The majority have a regular job that pays for their expenses while taking additional work to get ahead. Whether part-time or even another full-time job, a personal business, people are finding ways to live above average.

God will enable us to prosper when we live by doing right. If we keep the law in the Word of God and abide by the rules of the land we live in, then we will have favor with God.

To prosper is to obey God. Obedience includes doing what is right for our relatives. They may need help in something that we are capable of service. To prosper is to take care of the inner person. To care and have respect for people like our family, other relatives, friends, and neighbors.

Prosperity is to take good care of ourselves with healthy eating habits. Sometimes, treating ourselves when an occasion is warranted. Most of all is getting the proper rest needed when we go through difficult days.

Overall, when God sees our effort in doing these things, He will enable us to achieve.

To prosper means to work, live, treat others, and ourselves the right way, God's way.
