The Sabbath is a day for believers to rest, enjoy, and honor God. Our Creator rested on the seventh day from all His creation. Therefore, if possible, all believers should prepare themselves to follow likewise. Even though there is speculation on the day from a denominational perspective, all followers are responsible for keeping this commandment. The Sabbath is a deep love and commitment to God Himself. Similar to a marriage, some guidelines require loyalty to keep the relationship pure. The believer should support the Sabbath Day according to the Word of God. Make a sincere effort to fulfill the protocols for this day. After all, the Sabbath is one of the ten commandments. God expects the believer to take the time to attend church faithfully. A house of God should have praise, worship, and serve Him with the believer's participation. The Sabbath Day is different from the other days of the week. This day is for God. The rest of the days of the week are for us.

Prayer: Holy Father, give me the strength to honor your and keep it holy. Thank you God. Amen.
