Stagnant is the inability to stay efficiently active within an endeavour. For a believer, this could be a constant problem in life when attempting to achieve personal goals and fulfilling the will of God.

The fault for being stagnant is partially our carelessness combined with the evil schemes of the enemy himself, the devil. If we second guess ourselves in anything good to better ourselves in life, then we must ask God to help us escape this negative mindset.

The onus on our part is to remain focus from within to reproduce on the out. Daily we must have time with God to sustain us throughout any personal endeavours.

However, if we fail to practice these measures, it will only continue to lead to other issues over time.

These stagnancy problems may create a person in this state to become annoyed, confused, and miserable on any given day. Other forms of this condition are discomfort, moody, and not enjoying life as it meant to be.

Stagnancy could disappear with consistency. Allow God to see you through it, and He will bring you out of it.

Prayer: Dear God, help me not to be stagnant, Help me to be diligent. Thank you God.
