Inner Growth is the spirit inside of a human being beyond the soul with its faculties of reason, emotions, will, that is empty and has the opportunity to receive the Word of God to evolve as He intended.

When a person accepts the Word of God through the Son of God, the individual understands the terms and conditions that come with it. The believer will undergo personal challenges and opposition within society as they develop in Christ and must be determined to overcome.

There will be situations in life that seem unbearable and may not make any sense. However, a believer must maintain their relationship with God. Every follower of God will face trials and temptations that may prompt us to externally retaliate and risk to compromise and jeopardize the person's spiritual relationship with God.

To grow is to learn and continue to be consistent with what we know is to excel. The truth we know is from the Word of God. The more we apply it to our lives, the more we grow.

As children, once we read the basics, the next stage is more depth. To feed the inner being is one part. To obey and do what the Word of God is the other. To achieve this is by praying. A good practice is to pray to God about the scriptures you read.

God will increase your spiritual being and know between right and wrong in everything as long as you stay on course. As your faith grows more and the relationship with God increases, your spirit eye gets sharper.

God will direct your way to find the verses in the bible for any situation, circumstance, or problem in this life.

All of these qualities are from God and His love for the people He created.
