Why is it so important to tithe? To tithe is to support the work of God. Similarly, our living expenses need to pay the bills for maintenance purposes. Tithes are a contribution from supporters and others, will enable the work of God to continue and benefit them.

The Bible says that His people (which are Christian and believers) should give one-tenth to support the work of God. This portion from each member would come from our earnings. This commitment to God demonstrates our love by the labor we do and sharing it with Him. We are showing God that He is a part of our family.

Believers that tithe indicates as proof to people, God, and ourselves that we openly support His work with our giving. When we do that, He will respect us. This is important because when we require something and have trouble due to circumstances, God will remember the faithfulness towards Him with our tithing. The covenant believers or anyone who desires to give to God faithfully will be blessed by Him. Especially, when a believer experiences a tight financial situation and prioritizes tithing over other desirable needs, He will remember it. Tithes are a service to God and not to man. If we willingly give our tithes to a church as a member and find out there is misuse, God will still bless you and hold the people involved accountable. As being part of the family of God, the tithes we give belong to Him.

**Prayer:** Father God, help me to give to your house to honor your word. Direct my path as where to give. Thank you. Amen.
