Prophecy is a message from someone to another. The world would refer to it as a prediction. Bible prophecy is scriptures from the Bible that reflect communications from God to humans by the Prophets.

Who can bring a prophecy? Anyone.

However, Biblical prophecy is via the Holy Spirit to the person intended by someone whose heart is toward God.

Prophecy is prophetic. God would bring a message to His people to warn or help them anytime throughout their life.

Whatever the message may be, He knows the fate of every human being.

Prophecy discloses information that is supposed to aid a person in their life. The only issue for the receiver is where it is coming from and does it pertain plus will this word help them.

Prophecy sometimes creates hostility. For example, if a member in the congregation of a church receives a word from God, other listeners, unfortunately, could be envious of the receiver.

Prophecy is to benefit the people of God. That when the message comes, it indicates that He is watching over them.

Prophecy has ministered via the Holy Spirit to the hearts of people that desire to live for God. He knows every human being inside out.

Prophecy is widely known by society as future predictions. Nowadays, which is arguably known as the end times, the forecast about the future is rampant. The church, where prophecies are common, can only hope that God will give a message that will save lives as did His Son.
