*Remember Lot's wife.* This verse is the second shortest in the entire Holy Bible. Why should we remember Lot's wife? Her name is not known. Only referred to as wife or Lot's wife. Lot himself is mentioned several times in the book of Genesis especially in chapter nineteen. *Lot's wife is noticed three times in this chapter. The third time she turned into a pillar of salt. Lot's wife did not follow the instructions given by God through the angels that came to rescue her family*

*from the awaited destruction of Sodom.*

The daughters of Lot are recognized more than the mother, especially for their sinful activity. Lot's wife, based on the key verse in twenty-six, looked behind her and did not obey.

*Based on this verse, Lot's wife reminds us not to allow our environment to overwhelm our relationship with God where it forces us to sin. Be careful that our eyes become attached to the earthly things that we ignore His commandments.*

The reaction of Lot's wife illustrates that her mind is still living in the past. Her ears probably heard the destruction behind her as she flees from the city. Lot's wife had to feel the pressure of temptation while contemplating the risk of looking back. *God knows what is best for us whether we initially agree with it or not. However, Lot's wife did not think so anymore as she finally gave in and looked back.*

Lot, who chose to go to this city, exposed his wife and daughters to this place that led to adopting the ungodly morals that eventually impacted his family. Due to compromise, Lot led his wife into a pillar of salt and daughters to indecent acts.

*Lot's wife had the world in her heart that outweighed the obedience of God. Being too involved in society will affect us in that way. The risk for the carnal reward? To forsake the direction of the Lord?*

**Lot's wife is an example of the decision we all face. A choice of living in a sodom-based fraternity in exchange to miss out on future eternity?**
