What is wisdom? Wisdom is the insight to utilize inner qualities to help establish and manifest a prosperous foundation in the life of a believer. God provided this attribute for His people as a way of living that someday they will be heaven-bound and avoid the pitfall of hell.

How many people do we know or encounter daily that appear to be wise? Whether we confront one or two, they still tend to make human errors. However, what makes the wise stand out is the choices that catapult them to achieve personal success based on the wisdom inherited.

Wisdom is people that proceed with caution when it comes to making life-changing decisions. They examine the pros and cons before rendering their choice. Not easily swayed under the pressure of the fast-talking, eye-catching representative that will entice you to say yes and sign on the dotted line.

Wisdom is a person who has mental durability that outlasts several other people. Work under pressure without stressing out. Remain calm when attempting to resolve a matter. Reattempt to fix an assignment when it is not up to expectation.

Wisdom is people that make the right moves. The difference between success and failure is the timing. If a relative asks you, when are you getting married? Are you going to push yourself to find someone or give her a report each time you come in contact with them? To force ourselves into something that is gradually not developing is not wise.

Wisdom is people who observe. The eyes are above the mouth for a reason, and that is to assess before we address. This is why relationships fall apart that would help enhance the lives of people that have potential. Always want to say something before we see it.

Wisdom is for people that desire to change. Let us test ourselves starting today.

Wisdom is on the inside that manifests itself on the outside. Ask God to help you with whatever you are trying to achieve. To give you this wisdom. If you encounter opposition, then you know that you're on the right track.
